Media Usage – PG Classification

At St Mary's Primary School our staff will use resources that enhance and develop the themes & concepts of the curriculum.

In choosing these audio-visual resources, a careful selection of materials is adhered to including;

- Appropriateness to the unit of work being studied.
- That the staff have pre-viewed the resource.
- The principal has approved it use.
- Where necessary, the Staff have informed parents in advance of the presentation to allow them to withdraw their child from viewing.

In determining which media resources can be used in a Catholic school, the overriding principle is that materials are selected according to the Catholic ethos of the school and to support and develop the educational objectives of the curriculum. Occasionally resources used as part of the teaching and learning program have a rating of PG. Please see the link to the Australian Classifications which outlines the classification categories

<https://www.classification.gov.au/classification-ratings/what-do-ratings-mean>

By indicating with a "Y" you give permission for your child to view PG rated material selected by the staff to support and develop the educational objectives of the curriculum.
